

EQ191B

Function

It is geared towards the study of thermodynamics, kinetics of gases, temperature, heat exchanges, thermometric scales, thermal expansions, thermal radiation absorption and transmission, manometers, barometers, vapor pressure, saturated vapor, heat, degree of thermal insulation, fluid statics, the behavior of gases before pressure, temperature and their volume, linear and volumetric dilatation, picnometry, etc.

Knowledge areas

Physics

Level

Graduation - Technical education - High school
