

Panel for electronics (DC)

EQ230D

Function

Intended for study, physics laboratory, physics experiments on association of lamps in series and in parallel, resistors, color coding, electrical resistance, Ohms law, ohmic and non-ohmic resistor, association of resistors in series, in parallel and mixed, potentiometer, association of capacitors in series and in parallel, RC circuit, diode, law of loops and Kirchhoff nodes, electric power, etc.

Note: Does not come with the power supply.

Knowledge areas

Physics

Level

Graduation - Technical education - High school
