

## Emilia gases study kit with sensor and software

EQ837F

### Function

It is geared towards the study of fluid statics, the behavior of confined space gases and the behavior of such gases before pressure, temperature and volume; Boyle-Mariotte's Law.

- Millimetric advancement with control of round and fraction count.
- It enables the conduction of experiments with data acquisition or conventional ones.

### Knowledge areas

Physics - Chemistry

### Level

Graduation - Technical education
