

## Gas kinetic model table scn-0002

## **Function**

Intended for experimental study, chemistry laboratory and carrying out chemistry experiments on: kinetic theory of gases, effect of temperature and its consequence on particle velocity, volume and pressure ratio, under the same temperature, average molecular kinetic energy, internal energy of a perfect gas, what is meant by a model, etc.

## **Knowledge areas**

Chemistry - Math & Science Fundamentals - Compact Kits

## Level

High school
