

Set of affine and quadratic functions, with multichronometer (Bluetooth) and sensor

EQ001QBT

Function

Intended for mathematics laboratory and mathematics experiments on: Functions. What are the characteristics of the graph of the affine function? Positive angular coefficient. What are the characteristics of the graph of the affine function? Negative angular coefficient. What are the characteristics of the quadratic function?, quadratic function with parabolas of different openings, tables, graphs, trend line, function, etc.

Knowledge areas

Mathematics

Key Experiments

What are the characteristics of the graph of the affine function? Positive angular coefficient.
What are the characteristics of the graph of the affine function? Negative angular coefficient.
What are the characteristics of the quadratic function?
